I understand that by changing from the catalog in effect at the time of my first enrollment at UMHB to the new catalog year requested above, I am obligated to complete all degree requirements as specified in said catalog. I also understand the decision to change my catalog year can be made only once during my undergraduate studies and is not reversible. I also understand that the same catalog will be in force for the entire degree; in other words, I must use the same catalog for both the major and minor requirements.
